

AMENDMENTS

Please amend the application as follows:

In the Claims:

Add the following claims:

B1 30. (New) The system of claim 1, wherein said pole tower is positioned such that at least one point on said guyed tower engages said pole tower as said guyed tower sways.

31. (New) The system of claim 1, wherein said guyed tower has a top section, a tapered bottom section, and at least one middle section between said top and bottom sections, wherein an end of said bottom section is secured to said foundation, and wherein a periphery of said end of said bottom section is smaller than a periphery of said top section.

32. (New) The system of claim 1, wherein said guyed tower has a top section, a bottom section, and at least one middle section between said top and bottom sections, each of said sections respectively having a plurality of beams and at least three substantially parallel beams, each of the plurality of beams coupled to the substantially parallel beams, wherein said bottom section is secured to said foundation, wherein each of the substantially parallel beams for each of said respective sections is fixedly attached to the substantially parallel beams of an adjacent guyed tower section, and wherein a periphery of the plurality of beams for said bottom section does not exceed a periphery of the plurality of beams for said top section.

B1
contd

33. (New) The system of claim 1, wherein said single pole tower provides substantial support to said guyed tower.

34. (New) The method of claim 20, further comprising the step of positioning said pole tower within said middle region such that at least one point on said guyed tower engages said pole tower as said guyed tower sways.

35. (New) The method of claim 20, further comprising the step of providing substantial support to said guyed tower via said pole tower.

36. (New) The method of claim 29, further comprising the step of positioning said pole tower within said inner region such that at least one point on said guyed tower engages said pole tower as said guyed tower sways.

37. (New) The method of claim 29, further comprising the step of providing substantial support to said guyed tower via said pole tower.
